

# MOHAMED IBRAHIM

Frontend Developer

+91 96594 89912 ◇ Chennai, India

ibumohamed818@gmail.com ◇ LinkedIn Profile

## SUMMARY

---

Dedicated and result-driven **Frontend Developer** with 4.5+ years of experience in building scalable, user-centric web applications using **ReactJS**. Skilled in creating interactive UIs, optimizing performance, and integrating RESTful APIs. Passionate about clean code, responsive design, and mentoring junior developers. Proven track record of delivering high-quality solutions in fast-paced environments.

## SKILLS

---

- **Frontend Languages:** JavaScript, TypeScript
- **Frontend Frameworks:** ReactJS, Next.js
- **Backend Frameworks:** Express.js
- **Mobile Frameworks:** React Native
- **Database:** MongoDB, SQL
- **Cloud Services:** AWS (Amplify, Cognito, S3, SNS, Lambda, API Gateway)
- **Version Control:** Git
- **Tools / Dev Tools:** VS Code, Jira, Teams, Slack, Figma, Chrome DevTools, Lighthouse, React DevTools, Sentry, Photoshop

## EXPERIENCE

---

### Senior Software Developer

Kruu Inc.,

Oct 2022 - Present

*Chennai, India*

- Built the frontend architecture of dynamic, scalable, and user-centric features using ReactJS, JavaScript
- Designed and implemented interactive dashboards with Chart.js, creating visually compelling data representations for various user roles
- Integrated RESTful APIs, optimizing performance for large-scale user interactions.
- Developed and integrated a real-time chat system within the application, utilizing GraphQL queries on the frontend
- Integrated user authentication and registration systems, including validation, and error handling. Integrated support for unique user flows required
- Served the role of Project Manager for an internal HR Management Application
- Mentored junior developers and contributed to code reviews, promoting best practices in software development, version control, and clean architecture.
- Reduced manual data entry by **75%** and improved data accuracy through automation and robust validation
- Identified and debugged various bugs and issues, using Sentry

### Freelance Full Stack Developer

Ensure Investigation Service

Aug 2023 - Sep 2024

*Chennai, India*

- Architected and developed Full-Stack Web Application and React-Native Mobile Application
- Built a scalable, high-performance web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) integrated with a React Native mobile app.
- Developed backend services including authentication (Cognito), API management (API Gateway), Lambda functions, and S3 storage using AWS Amplify. Enabled continuous deployment of both frontend and backend components.

- Implemented role-based access control (RBAC) using AWS Cognito with custom attributes, managing permissions for different user roles.

### **Junior Software Developer**

PyPs.In Technologies

Nov 2021 - Oct 2022

*Chennai, India*

- Developed static sites and software solutions using React, with backend services managed by Firebase
- Supported in migration of a clinical appointment booking software from PHP to React application, improving performance
- Tested and integrated APIs using tools like Axios, Postman, and SwaggerAPI, ensuring seamless communication between frontend and backend systems
- Collaborated closely with the client to understand their unique frontend requirements

### **Web Developer**

SVS Infotech

Sep 2020 - Oct 2021

*Chennai, India*

- Developed content management systems (CMS) and software applications using HTML, CSS, PHP, MySQL, React, JavaScript, jQuery, and AJAX.
- Worked closely with clients to gather requirements, provide updates, and ensure that delivered solutions met expectations.

## **EDUCATION**

---

**Bachelor of Computer Application**, Jamal Mohamed College

2017 - 2020
