Full Stack Developer
+91 96594 89912
Chennai, India

SUMMARY

Full Stack Developer with **5+ years of experience** building web and mobile applications using **React, Next.js, TypeScript, Node.js, Express.js, MongoDB, GraphQL, and AWS**. Experienced in designing reusable frontend architectures, developing backend APIs, implementing data-intensive workflows, and integrating third-party services. Delivered features across education platforms and business applications, including project-based learning, AI-assisted assessment, analytics, and real-time communication. Experienced in end-to-end feature ownership, technical problem-solving, production debugging, and mentoring developers.

EXPERIENCE

Senior Software Developer Oct 2022 - Present
Kruu Inc. *Chennai, India*

- Owned end-to-end development of features across education products, translating business requirements into maintainable React interfaces, Express.js APIs, MongoDB operations, and application workflows.
- Designed and developed reusable **React and TypeScript architectures** for configurable forms, dynamic worksheets, tables, file uploads, nested inputs, and conditional workflows.
- Developed backend APIs and optimized **MongoDB queries and aggregation pipelines** for filtering, pagination, reporting, bulk data processing, and reusable data-access operations.
- Integrated **AWS Lambda-based serverless APIs** with MongoDB and AWS services, including Cognito user/group workflows, S3 file handling, and asynchronous background processing.
- Integrated **Google Gemini, Razorpay, SendGrid, Amazon SES, and Zoom Meeting SDK** to support AI-assisted evaluation, payments, notifications, and meeting workflows.
- Implemented **real-time messaging** using GraphQL queries, mutations, and subscriptions, including service-layer separation and subscription lifecycle management.
- Developed internal HRMS workflows for attendance, leave, and asset management, reducing manual administrative effort by approximately **75%** through automated reporting and exports.
- Conducted code reviews and mentored junior developers on debugging, reusable components, type safety, and maintainable code. Collaborated with cross-functional teams to deliver and support production features.

Junior Software Developer Nov 2021 - Oct 2022
PyPs.In Technologies *Chennai, India*

- Developed React applications integrated with Firebase backend services and REST APIs.
- Contributed to migrating a clinical booking platform from PHP to React, improving frontend usability and maintainability.
- Integrated APIs using Axios, Postman, and Swagger, collaborating with clients to translate requirements into functional UI components.

PROJECTS

Kruu - Project-Based Learning Platform

React, TypeScript, Node.js, Express.js, MongoDB, GraphQL, AWS

- Developed project-based learning workflows covering student milestones, interactive worksheets, submissions, progress tracking, assessment criteria, and evaluation pipelines.
- Built configurable frontend architectures supporting dynamic worksheets, nested questions, conditional inputs, file uploads, and reusable form workflows driven by shared definitions.
- Implemented backend data operations, bulk processing, project dashboards, and reporting workflows supporting students, educators, and schools.

AI-Assisted Assessment and Project Evaluation

React, TypeScript, Node.js, Google Gemini, MongoDB

- Integrated Google Gemini for automated worksheet and final-project evaluation using predefined rubrics and assessment criteria.
- Developed evaluation workflows incorporating AI-generated scores, human review, composite scoring, and batch processing to support structured student assessments.

Student and School Analytics Dashboard

React, Chart.js, GraphQL, MongoDB

- Developed interactive dashboards visualizing student enrollment, project initiation and completion, grade-level progress, and school performance metrics.
- Integrated GraphQL data and implemented dynamic charts and reporting views to help track academic progress and operational performance.

SKILLS

- **Languages**: JavaScript, TypeScript
- **Frontend**: React.js, Next.js, Ionic React, Redux Toolkit, React Context API, HTML, CSS
- **UI / Libraries**: Bootstrap, Tailwind CSS, Ant Design, Chart.js
- **Backend**: Node.js, Express.js, REST APIs, GraphQL, Serverless Functions
- **Database**: MongoDB, Aggregation Pipelines, CRUD Operations
- **Cloud / AWS**: AWS Amplify, AWS Lambda, Amazon Cognito, Amazon S3, API Gateway, Amazon SES, Amazon SNS
- **Integrations**: Razorpay, SendGrid, Firebase Admin, Zoom Meeting SDK
- **AI / GenAI**: Google Gemini, OpenAI API, LangChain, RAG
- **Testing / Monitoring**: Playwright, Postman, Sentry
- **Tools**: Git, VS Code, Jira, Slack, Figma, Chrome DevTools, Lighthouse, React DevTools

COURSES

JavaScript: Understanding the Weird Parts Issued On: Aug 2025
Credential ID: UC-04c68b6d-80d9-4f06-b9ad-386918563362

Generative AI for JavaScript Developers: LangChain, RAG Issued On: Sep 2026
Credential ID: UC-9dc87507-a9cf-4825-85a8-464b5db0eca7

EDUCATION

Bachelor of Computer Applications 2017 - 2020
Jamal Mohamed College *Trichy, India*
